

Commission on Judicial Disabilities and Tenure (DQ)

MISSION

The mission of the Commission on Judicial Disabilities and Tenure (CJDT) is to preserve an independent and fair judiciary.

SUMMARY OF SERVICES

The services provided by the Tenure Commission are as follows: reviewing complaints concerning the misconduct of judges; conducting performance evaluations of associate judges eligible for reappointment; conducting fitness and qualification reviews of retiring and senior judges; and processing the involuntary retirement of judges for health reasons.

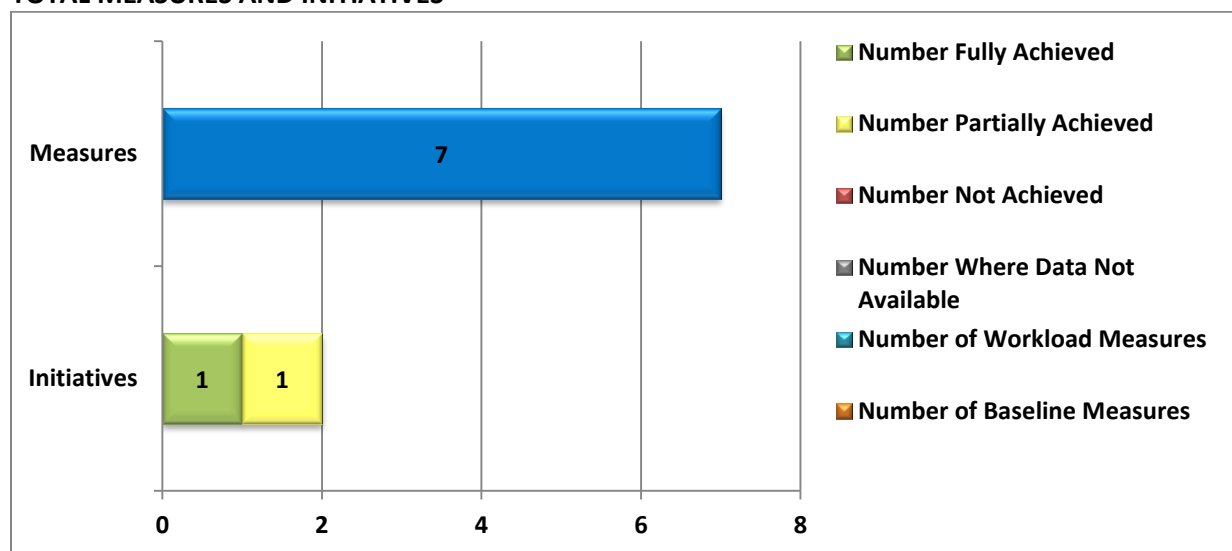

ACCOMPLISHMENTS

- ✓ The Commission has renovated its conference room which included the installation of a new power/data supply system that brings electronic connectivity to the conference room tables. Commission members are now able to receive monthly meeting packages electronically, and to access the materials during meetings using their laptop computers. This accomplishment will reduce paper, copying, and mailing/delivery costs for the agency.
- ✓ The Commission is nearing completion of its document scanning project which was begun last summer. The project entailed scanning and electronically storing the files of judges of the District of Columbia Courts who are deceased or no longer perform judicial duties. There were approximately 200 files that had to be scanned, some of which were voluminous. The project should be completed later this month.
- ✓ The Commission revised its Public Information Brochure, which provides more information about the Commission's authority and jurisdiction, but focuses on the filing of judicial misconduct complaints. The brochure is provided to all complainants, and to anyone requesting information concerning the Commission. It is very helpful to members of the public who cannot access the Commission's website, or only seek information about the complaint process.

Agency Management

OBJECTIVE 1: Implement electronic filing for judges of DC Courts to submit financial reports and upgrade data cabling

- **INITIATIVE 1.1: Implement electronic filing for judges of DC Courts to submit financial reports**
Partially Achieved. The Commission is in the process of working with OCTO to design a program that will enable judges of the DC Courts to submit their Annual Financial Reports electronically. This project requires substantial planning and the design of several matrix configurations before implementation can be achieved. This is a slow, time consuming project, that the Commission hopes will be operational in FY 2013.
- **INITIATIVE 1.2: Upgrade data cabling**
Fully Achieved. The Commission has installed cabling in its conference room to support up to ten laptop computers, enabling Commission members to access their monthly meeting packages on their laptops, thereby reducing the use of paper and saving mailing/delivery costs.
