Opening of New Programs		DCPS launched two new programs this school year that are focused on preparing students for college and their future careers. Bard High School Early College DC in Ward 7 opened its doors to students, and will provide them the opportunity to earn college credit and an associate degree from Bard College, while earning their high school diploma. In Ward 4, Coolidge High School launched the Early College Academy, where students will gain the valuable experience of attending college-level courses while earning their high school diploma, and up to an associate degree from Trinity Washington University. Educators also welcomed 6th grade students to DCPS' newest stand-alone middle school, Ida B. Wells Middle School, which will provide a rigorous and loving learning environment for students while also engaging and developing them as change agents in their communities.
Guide to Graduation, College and Career		In spring 2019, DCPS launched the Student Guide to Graduation, College, and Career, a personalized guide that will be sent via mail and available online to all ninth through eleventh grade students to give them an in-depth look at their progress toward graduation, as well as recommended action steps for success toward graduation, college, and career. The Student Guide to Graduation, College, and Career is the first of its kind in DCPS and positions the District as a leader in providing high school students with the information they need to progress toward graduation and plan their next steps. The guide considers academic performance, standardized test scores, and personal interests to give students detailed information on what their future paths could look like.
